

PRIVATE USE OF CHURCH VEHICLES

Licensed clergy actively engaged in parish ministry shall have private use of a church vehicle supplied as part of the Living.

The purchase, maintenance and servicing of a parish car is the responsibility of the Parish Council and can be arranged through the Diocesan Fleet Management arrangements.

The care of the parish car is the responsibility of the clergy person. The clergy person shall keep it clean and tidy at all times and shall make sure it is serviced regularly by an approved service provider.

The fuel needed for the private use of the vehicle outside of the parish will be paid for by the clergy person.

Travelling outside of the parish for Diocesan purposes is not private travel and the fuel must be paid for by the parish.
